

# Fine Organic Network – the Best Organic Food from Poland, Italy and Portugal

**Fine Organic Network** has been created by 4 European companies with the aim to supply enthusiast of healthy food worldwide with **wide selection of organic food products from across EU**. The Network offer comprises various types of products from drinks, juice through jams, oil, grains, nuts, muesli and dried vegetables till vegan cheese and yoghurt and represents culinary tradition of various European countries such as Italian olive oil and orange jam, Polish birch sap, buckwheat and cereals and the newest trends of modern cuisine such as powdered sprouts and vegan dairy. All of their products are organic which is confirmed by EU organic logo.

The offer of Network Members has been appreciated in Ready2Net pilot project realized within the frame of the EU Programme for the Competitiveness of Small and Medium-Sized Enterprises (COSME). As a result Fine Organic Network is one of only ten networks of SMEs from all over EU **awarded in Redy2Net project** which supports their foreign promotion and cooperation.

**Fine Organic  
Network**

Ready2net 

Project is co-financed by the European Union in the frame of COSME. The sole responsibility of this publication lies with the author. The European Commission is not responsible for any use that may be made of the information contained therein.

**NATURO**

# Naturo Sp. z o. o.

## Our story

Naturo Sp. z o. o. has been established in 2013 in the east of Poland near Lublin. As a production facility, from the beginning of our existence, we have been cooperating with leading production and trading companies as well as commercial networks. For years, the healthy sweeteners, breakfast cereals, muesli, vinegars, dried vegetables and spices produced by the Naturo company met the expectations of consumers in terms of taste, price and quality.

The Naturo company conducts its activities with respect for the natural environment. We use consumables such as cardboard boxes, paper bags, etc. to carry out shipments in our store and the Naturo warehouse. We respect the **ZERO WASTE** policy. We strive to ensure that all materials rejected from the production process that can be recycled are reused by our Naturo logistics and distribution center. The Naturo company has the **PL-EKO-01 certificate**, which allows us to produce and pack

ecological products. Obtaining this certificate is based on a detailed examination and thorough verification of production processes and technologies. This means that all products are manufactured under a sufficiently high production rigor. As a responsible and reliable company, we are in the process of implementing IFS certification.

## Our brands

**BIÓBAS**

*The Naturo company conducts its activities with respect for the natural environment. We respect the **ZERO WASTE** policy.*

# Porridges and cereals

Especially for the youngest, we have prepared **dairy-free, unprocessed,** healthy BioBas products. Our porridges and cereals are not only high-quality ecological products, but also a products that, thanks to a modern visual appearance, is to support our children in leading a healthy lifestyle and expanding knowledge in this field.

**Buckwheat porridge**  
200 g

Buckwheat porridge like amaranth and millet does not contain gluten. One of the first porridges you can serve to your child.

**Millet flakes**  
220 g

Millet flakes as one of the few food products contain silicon, which is necessary for the proper functioning of our body.

**Semolina porridge**  
200 g

Semolina porridge is an obligatory element of a healthy lifestyle. Semolina porridge is not only easily digestible, but also contains beneficial iodine.

**Oat flakes**  
220 g

Everyone knows how nutritious and healthy oatmeal is. An excellent source of dietary fiber and magnesium.

**Spelt porridge**  
200 g

Spelt porridge, an ancient variety of wheat, is a solid source of protein and fiber.

# Vinegars and dried herbs

Our vinegar, dried vegetables and spices from around the world are made of the **highest quality raw materials** from proven sources.

**Apple vinegar 5%**  
5 L

Great apple vinegar that gives multiple benefits. Apple vinegar support a healthy immune system and helps control weight. It is natural and unpasteurized. It content mother of vinegar.

**Apple vinegar 5% BIO**  
5 L

Organic Apple Vinegar is 100% natural, unfiltered, undiluted & unpasteurized with genuine mother of vinegar content. It is made by fermenting the real apple juice, extracted from the finest apples, in order to obtain maximum health & wellness benefits. It is naturally rich in antioxidants and contains no added colors or preservatives.

**Balsamic vinegar of Modena 6% BIO**  
5 L

Organic balsamic vinegar of Modena. Balsamic vinegar is made of grape must which is fermented for a long term period time in oak barrels. There is no sugar added. Ideal for dressing. Also taste great with vanilla ice.

**Sea salt**  
300 g

Our sea salt is authentic, unprocessed whole salt from Mediterranean sea. With a subtle flavor and delicious taste, it's a great all-purpose salt to keep on hand. Great alternative for regular salt.

**Dried beetroot**  
100 g

The beetroot has been popular in our region for at least 4,000 years. Beetroot has a lot of magnesium, potassium, zinc, iron and phosphorus. In beetroot you will find a lot of vitamin C, as well as vitamins A, E and K. Dried beetroot is perfect for making delicious borscht. Just add sugar, vinegar, water and salt. In combination with Naturo Dried Vegetables, it is a great idea for a soup. It also tastes like a solitary snack.

**Dried parsley**  
20 g

Dried parsley is perfect for seasoning cottage cheese and soups. Parsley contains a lot of iron and C-vitamin. It is perfect for strengthening the body. Parsley is also great to give freshness to every single dish you do.

**YOGA N**  
**PLANT**  **BASED**  
**ALMOND CREAMERY**

# Costa & Casimiro Lda Yogan Creamery

## Our story

It all started when we found what's behind a "natural flavour". This common "ingredient" is found in a lot of vegan products including cheese. You know when you start wanting to eat a more plant based diet and find a whole new world of products that can easily substitute its animal version, to later find out that you are harming your health and well being? Well, has much as we had loved to find the best products already existing, we started solving our own problem and making our own alternatives to cheese, based on almonds, a super nutritious ingredient, locally grown in Portugal, at first to be consumed by us, but soon by our friends and family.

The response has been so good and the requests so many (because the product is great, healthy and delicious!) that we are now present in Portugal, United Kingdom, Germany, Holland and Spain, at the main organic stores and supermarkets isles (the ones with the organic and healthy products).

In this quest for consuming really organic and healthy products, Yogan was created. Now we produce plant based alternatives to cheese butters and sauces that are organic certified, healthy and very tasty. Innovation is at the center of our values and we were able to adapt the traditional art of making cheese and butter into plant based products.

By using traditional fermentation we are able to obtain similar textures, form and function of the conventional products, but without harming the animals and the environment.

**YOGAN**  
PLANT BASED  
ALMOND CREAMERY

*We are two entrepreneurs who could not find healthy and nutritious vegan alternatives to cheese. To eat a mixture of flour, oil and flavour enhancers to look like cheese? **NOT FOR US!***

# Yogan Creamery

## Plant based and organic alternatives to cheese, butters and sauces

**Our main focus** is to provide plant based alternatives to the dairy industry. We differentiate ourselves by providing truly healthy products, without additives and by using only organic ingredients.

**Healthy and organic**

**Sustainable**

**Tasty**

Our vegan “Buuutter” was distinguished by “The Sunday Times” as one of “the best flavoured ones in the UK”, competing directly with the traditional butters.

# Our Products

Made with fermented almond milk, extra virgin olive oil, **good, whole**, and **nutritious** ingredients.

These are the alternatives your clients were looking for.

**Mozzarella**  
100 g

**Ingredients:** water, almonds\*, extra virgin olive oil\*, tapioca\*, agar agar \*, sea salt.  
\*from organic agriculture

The healthy and nutritious alternative to mozzarella cheese. With almonds and extra virgin olive oil. It melts when heated. No flours, sugars or added flavours. Half ball format.

*le Terre di*  
**Zoo**  
*organic farm*

# Gerace Maria Caterina Le Terre di Zoè

## Our story

The history of Le terre di zoè is that of a family business, handed down from generation to generation, with its epicentre in the plains of Gioia Tauro in Reggio Calabria in the south of Italy. Over the decades, foresight and research have led to significant changes in both cultivation and operations. From purely olive cultivation, we transformed first into cultivation of citrus and later into cultivation of fruit in general.

When we understood that a farm can be multi-faceted and can have a social value, we morphed into a multifunctional business, where we embraced primary production, growth, direct marketing, agritourism, and farm education.

**Respecting the tradition** that has distinguished us, the business continues to transform and evolve.

Consolidating growth to date, we are setting up new direct commercial channels for the sale of our products, including social media, with the aim of spreading **the true culture of organic food**, which must not only be healthy, but also authentic.

# Why choose Le Terre di Zoè products?

## Certified organic products

The “Le terre di zoè” brand is assigned only to products with **certified organic ingredients** of our own production or purchased from selected suppliers. The transformation from fruit to product takes place the day after the harvest in our **certified ORGANIC laboratory**.

## Craftsmanship

All processing is done **the old-fashioned, artisanal way**. Using traditional methods that have been updated for health and safety and are monitored using modern equipment, we give the same attention and love to our products as our grandmothers did, pursuing **the highest quality standards**.

*The quality of “Le Terre di Zoè” products is guaranteed by their pure and authentic raw ingredients and by the care we take during production and processing.*

# Why choose Le Terre di Zoè products?

## No sugar added

The products of the “Le terre di zoè” line contain **only fruit sugar**, which preserve the true flavour of the fruit and make the products as healthy as possible!

## Gluten free, no allergens

The products of Le terre di zoè are **gluten-free and do not contain allergens**. We produce the fruit used as raw ingredients, and the laboratory used for processing does not process or come into contact with foods that contain gluten and / or allergens. Our laboratory processes only non-nut fruit.

## Only seasonal fruit

To better capture the flavour of the fruit, we only process **our seasonal fruit**, grown on our land in Calabria and harvested only when ripe. This is the only way to ensure full flavour during processing.

## Without thickeners, dyes and preservatives

The products of the Le terre di zoè line **do not contain thickeners, colouring, or preservatives**. We thicken our compotes using the high content of natural pectin contained in the fruit. The natural colour is preserved by vacuum cooking. Long conservation is guaranteed by heat treatment.

# Organic jam and marmelaide

The category of organic compotes includes our sweet fruit preserves, obtained by vacuum cooking fruit, grape sugar, and spices.

The fruit is **100% Italian**, produced by us in Calabria, and the flavours are typical of this area. We have created tantalizing combinations of flavours. To see all of available flavours, please visit our website.

Our compotes, in addition to being handcrafted, are made without added refined sugar, without thickeners, without preservatives, and without dye.

**Compote bitter orange**  
260 g

**Ingredients:** organic bitter orange from Calabria, organic grape sugar.

**Compote orange and ginger**  
260 g

**Ingredients:** organic oranges from Calabria, organic grape sugar, organic ginger (0,2%).

260 g

**Ingredients:** organic clementine from Calabria, organic grape sugar.

**Compote clementine and bergamot**  
260 g

**Ingredients:** organic clementine from Calabria (85%), organic grape sugar, organic bergamot (15%).

**Compote kiwi, lemon and ginger**  
260 g

**Ingredients:** organic kiwi from Calabria, organic grape sugar lemon from Calabria, organic ginger (0,4%).

**Compote lemon**  
260 g

**Ingredients:** organic lemon from Calabria, organic grape sugar.

# Organic juices and nectars

They are excellent choices for breakfast, snacks and for aperitifs as ingredients in fresh cocktails.

The organic juices and nectars are obtained from the cold pressing of fruit produced by us in Calabria and processed **within 24 hours of harvesting**.

The basic flavours are blond orange, blood orange, bergamot, clementine, lemon, pomegranate and kiwi, which are then combined with ginger (in the case of orange and kiwi) to add a little spice to the palate. To see all of available flavours, please visit our website.

**Kiwi and ginger nectar**  
200 / 700 ml

**Ingredients:** 60% organic kiwi from Calabria, water, organic grape sugar, organic ginger (0,3%).

**Orange juice**  
200 / 700 ml

**Ingredients:** 100% organic oranges from Calabria.

**Blood orange juice**  
200 / 700 ml

**Ingredients:** 100% organic oranges from Calabria.

**Bergamot juice**  
200 / 700 ml

**Ingredients:** 100% organic bergamot from Calabria.

**Clementine juice**  
200 / 700 ml

**Ingredients:** 100% organic bergamot from Calabria.

**Pomegranate juice**  
200 / 700 ml

**Ingredients:** 100% organic pomegranate.

# Organic extra virgin olive oils

**Flavoured oils:** to give your dishes a touch of freshness or spice, we created oils flavoured with oranges, bergamots and chillies.

Our monoculture organic extra virgin olive oil, made from our own quality Ottobratica olives, is produced using cold extraction. Its low acidity and excellent balance between spiciness, bitterness and fruitiness make it a pleasant oil for all palates.

Most of the crops are from the Quaranta area in the province of Reggio Calabria, Italy, at 150 m above sea level.

Organic extra virgin olive oil  
flavored with orange  
250 ml

**Ingredients:** extra virgin olive oil  
monocultivar ottobratica 99%, essential  
oil orange 1%.

Organic extra virgin olive oil  
flavored with bergamot  
250 ml

**Ingredients:** extra virgin olive oil  
monocultivar ottobratica 99%, essential  
oil bergamot 1%.

Organic extra virgin olive oil  
flavored with chili  
250 ml

**Ingredients:** extra virgin olive oil  
monocultivar ottobratica 99%, chilli in  
flakes 1%.

Organic extra virgin  
olive oil  
500 / 750 ml

**Ingredients:** 100% organic extra virgin  
olive oil.

Organic extra virgin  
olive oil  
5 L

**Ingredients:** 100% organic extra virgin  
olive oil.
